

Migration Health and Development Research Initiative (MHADRI)

To advance evidence-based global migration health policies and practices through international research collaborations that will improve the health and wellbeing of people and communities affected by migration

1st May 2018

Dear MHADRI members

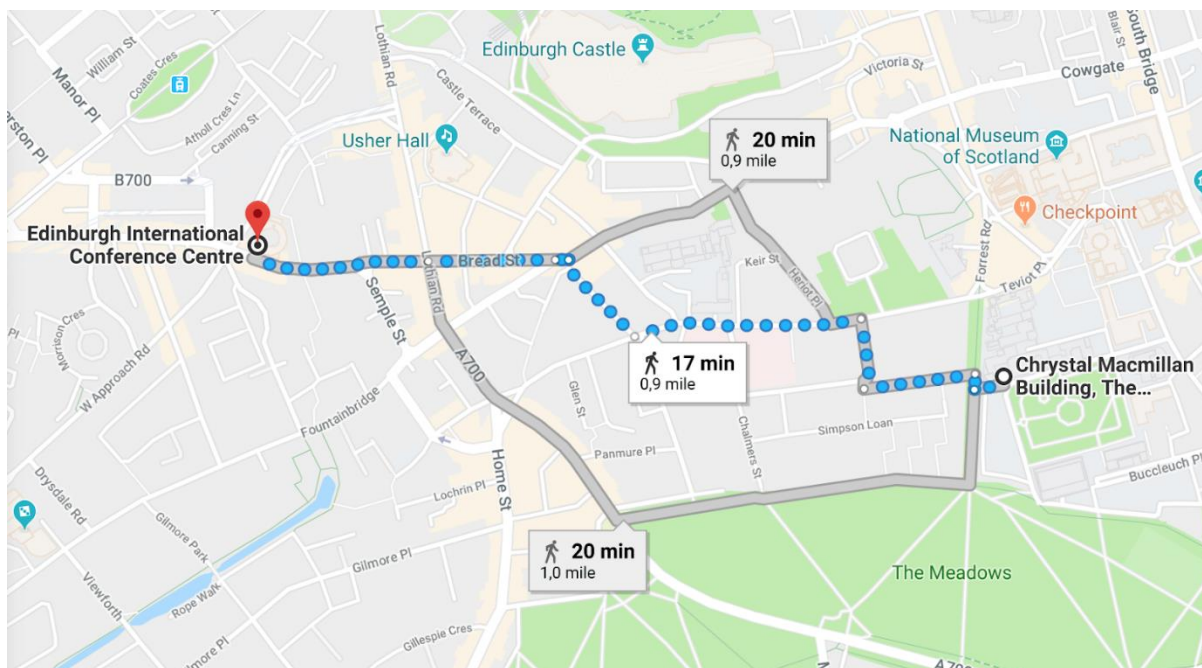

As some of us will be at the 1st World Congress on Ethnicity, Race and Health (MERH) being held in Edinburgh in May, we have organised a space to hold a **Network Meeting** on the day preceding the conference.

When: Wednesday 16th May, 4pm - 5.30pm

Where: Room 6.02, 6th Floor, Chrystal Macmillan Building, University of Edinburgh, 15A George Square, EH8 9LD

Agenda to follow.

Please [RSVP](#) and do let us know if you are participating in sessions at MERH [here](#).

The venue is about a 20 minute walk from the conference centre. Google map with directions [here](#). An interactive map to the venue can also be found [here](#). After the meeting, there will be an opportunity for further networking at the [St Andrews Brewing Co](#), just across the road from the meeting venue [drinks/food for your own account].

Migration Health and Development Research Initiative (MHADRI)

To advance evidence-based global migration health policies and practices through international research collaborations that will improve the health and wellbeing of people and communities affected by migration

Please don't forget that **MHADRI is hosting a workshop** during the conference!

When: Day 1, (Thursday 17th May) 4pm - 5.30pm

Session: 2.7 W1

Title: (Re)Framing the Migration and Health Research Agenda: a panel discussion

Looking forward to seeing you in Edinburgh!

We will be in touch again soon about further networking and collaboration opportunities.

With warmest wishes

Chuck Hui MD
Chair, MHADRI Steering Committee

Jo Vearey PhD
Vice-Chair, MHADRI Steering Committee
